ABSTRACTS

**American Dairy Science Association®
American Society of Animal Science**

Monday, July 8, 2013

SYMPOSIA AND ORAL SESSIONS

	Abstract No.	Page No.
Teaching/Undergraduate and Graduate Education: Teaching and Learning in the Animal Sciences: New Grounds for the 21st Century	1–3	1
Triennial Growth Symposium: Vitamin D—Establishing the Basics to Dispel the Hype.....	4–13	2

Tuesday, July 9, 2013

POSTER PRESENTATIONS

Ruminant Nutrition: Feed Additives, Minerals, and Vitamins I	T1–T39	5
Ruminant Nutrition: Feeding, Ruminant Fermentation, and Efficiency of Production I.....	T40–T63	17
Ruminant Nutrition: Protein, Energy, and By-Products Supplementation I.....	T64–T96	25
Undergraduate Student Competition: ADSA-SAD Undergraduate Poster Competition: Original Research.....	T98–T101	36
Graduate Student Competition: ADSA Dairy Foods Division Poster Competition	T102–T111	38
Graduate Student Competition: ADSA Production Division Poster Competition, MS Division	T113–T127	42
Graduate Student Competition: ADSA Production Division Poster Competition, PhD Division.....	T129–T139	48
Animal Health: Management Strategy and Intervention Mechanisms	T140–T170	52
Beef Species.....	T171–T178	62
Breeding and Genetics: Applications and Methods in Animal Breeding—Beef.....	T179–T195	65
Breeding and Genetics: Genomic Selection	T196–T211	71
Dairy Foods: Chemistry and Processing I	T212–T230	76
Dairy Foods: General Topics	T231–T238, T384	82
Dairy Products I.....	T239–T249	84
Forages and Pastures: Animal Responses	T250–T271	87
Growth and Development I.....	T272–T281	95
Dairy Foods: Microbiology I.....	T282–T292, T237	99
Nonruminant Nutrition: Amino Acids and Energy	T293–T308	103
Nonruminant Nutrition: Vitamins and Minerals	T309–T315	109
Physiology and Endocrinology I.....	T316–T352	111
Production, Management and the Environment: Diet and Forage.....	T353–T364	123
Teaching/Undergraduate and Graduate Education: Teaching and Learning Tools for Animal Sciences	T377–T383	127

SYMPOSIA AND ORAL SESSIONS

Graduate Student Competition: ADSA Dairy Foods Division Oral Competition	14–22	130
Graduate Student Competition: ADSA Production Division Oral Competition, PhD Division.....	23–31	133
Ruminant Nutrition: Beef: Minerals, Vitamins, and Additives.....	32–43	137
Bioethics Symposium I: The Hunger Games: Should “Big Ag” Be Left Standing?	44–47	141

Breeding and Genetics: Applications and Methods in Animal Breeding—Beef.....	48–56	142
Cell Biology Symposium: The Immune System in Pregnancy.....	57–59	145
George C. Fahey Companion Animal Nutrition Symposium I: Effect of Dietary Format on Nutrition, Food Management, and Food Safety.....	60–64	146
Ruminant Nutrition: Dairy: General Topics.....	65–73	148
Lactation Biology I.....	76–87	151
Meat Science and Muscle Biology: Effects of Nutrients and Supplements on Animal Growth Performance and Meat Quality.....	88–98	155
Nonruminant Nutrition: Gut Health.....	99–106	159
Nonruminant Nutrition: Trace Minerals.....	107–112	162
Ruminant Nutrition Symposium: Advancements in Enhancing Cell Wall Digestibility and its Contribution to Improve Ruminant Production.....	113–116	165
Swine Species.....	117–124	167
Teaching/Undergraduate and Graduate Education Symposium: Graduate Education in a Shifting Research Landscape.....	125–129	170
Breeding and Genetics: Applications and Methods in Animal Breeding—Dairy I.....	130–136	172
Nonruminant Nutrition: Nutrition and Physiology.....	137–141	175
Undergraduate Student Competition: ADSA-SAD Undergraduate Competition: Dairy Foods.....	142–146	177
Undergraduate Student Competition: ADSA-SAD Undergraduate Competition: Dairy Production.....	147–154	179
Graduate Student Competition: ADSA Production Division Oral Competition, MS Division.....	155–166	182
Beef Species.....	167–175	186
Bioethics Symposium II: Is Modern Animal Agriculture Ethically Defensible?.....	176–179	189
Breeding and Genetics: Applications and Methods in Animal Breeding—Pigs.....	180–191	191
Dairy Foods: Cheese.....	192–197	195
Companion Animals: Companion and Captive Exotic Animals.....	200–208	197
Dairy Foods Symposium: New Approaches to Lower Sodium in Cheese and Techniques to Address Quality Challenges.....	209–213	200
Milk Protein and Enzymes Symposium: Role of Enzymes in Dairy Processing.....	214–217	202
Physiology and Endocrinology: Regulation of Estrus.....	218–228	204
Physiology and Endocrinology Symposium: The Next Generation of Metabolic Endocrinology.....	229–234	208
Production, Management and the Environment: Diet and Forage I.....	235–243	210
Ruminant Nutrition: General Topics.....	244–254, 812	213
Small Ruminant: Production, Management, and Cell Biology.....	816–827	217
Undergraduate Student Competition: ADSA-SAD Undergraduate Competition: Original Research.....	255–263	221
Teaching/Undergraduate and Graduate Education: Learning Styles and Student Success.....	264–269	224
Trace Mineral Nutrition Symposium.....	270–273	226

Wednesday, July 10, 2013

POSTER PRESENTATIONS

Dairy Foods: Chemistry and Processing II.....	W1–W20	228
Ruminant Nutrition: Fats, Fatty Acids, Oils, and Glycerin Supplementation I.....	W21–W41	235
Ruminant Nutrition: Feed Additives, Minerals and Vitamins II.....	W42–W79	242
Ruminant Nutrition: Feeding, Ruminant Fermentation, and Efficiency of Production II.....	W80–W106	255
Ruminant Nutrition: Protein, Energy and By-Products Supplementation II.....	W107–W139	264
Animal Behavior and Well-Being I.....	W140–W157	275
Undergraduate Student Competition: ASAS Undergraduate Student Poster Competition.....	W158–W181	280
Breeding and Genetics: Applications and Methods in Animal Breeding—Dairy.....	W182–W194	288
Breeding and Genetics: Applications and Methods in Animal Breeding—Pigs, Poultry, Sheep, and Horses.....	W195–W212	292
Dairy Foods: Cheese.....	W213–W235, W449	298
Companion Animals: Comparative Animal Nutrition.....	W236–W242	305
Dairy Foods: Dairy Products II.....	W243–W253, W450	308
Forages and Pastures: Silages and Fermentation.....	W254–W276	312
Growth and Development II.....	W277–W288	319
Lactation Biology I.....	W289–W301	323
Meat Science and Muscle Biology I.....	W302–W315	327
Dairy Foods: Microbiology II.....	W316–W326	331
Nonruminant Nutrition: Feed Additives.....	W327–W343	335

Nonruminant Nutrition: Gut Health.....	W344–W351	341
Physiology and Endocrinology II	W352–W382	344
Production, Management and the Environment: Management and Methods.....	W383–W412	355
Small Ruminant: Nutrition and Forages.....	W417–W437	365
Swine Species: Grow-Finish Pigs.....	W438–W446	371
Swine Species: Sow Productivity.....	W447–W448	374

SYMPOSIA AND ORAL SESSIONS

Graduate Student Competition:		
ADSA Southern Section Graduate Student Competition.....	274–279	375
Animal Behavior and Well-Being I.....	280–291	378
Animal Health: Disease Assessment.....	292–301	382
ARPAS Symposium: Applied Nutrition of Ruminants—Current Status and Future Directions.....	302–306	386
Breeding and Genetics: Applications and Methods in Animal Breeding—Dairy II.....	307–313	388
Breeding and Genetics: Genomic Selection in Beef.....	314–322	391
Dairy Foods: Chemistry.....	323–330	394
Ruminant Nutrition: Dairy: Intake, Grazing and Supplementation.....	331–342	397
Dairy Foods Symposium: Dietary Influence on Milk Synthesis of Health-Promoting Components in Bovine and Human Milk	343–346	401
Extension Education	347–354	403
Forages and Pastures Symposium: Forage Systems Adaptable to Dry Conditions.....	355–358	406
Meat Science and Muscle Biology Symposium: Implants, Muscle Development and Meat Quality.....	359–362	408
Nonruminant Nutrition: Enzymes.....	363–369	410
Physiology and Endocrinology: Nutrition and Immunology.....	370–378	413
Production, Management and the Environment: Management and Methods I.....	379–388	417
Teaching/Undergraduate and Graduate Education: New Approaches to Animal Sciences Curriculum.....	389–396	421
Graduate Student Competition: ADSA-ASAS Northeast Graduate Student Competition.....	397–400	424
Nonruminant Nutrition: Feed Additives	401–404	426
ADSA Multidisciplinary and International Leadership Keynote (MILK)Symposium:		
Colostrum Quality, Analytical Methods and Processing Challenges.....	405–409	428
Animal Behavior and Well-Being II.....	410–418	430
Animal Health: Intervention and Management Strategies.....	419–429	433
Ruminant Nutrition: Beef: Efficiency of Production.....	430–436	437
Beef Species Symposium: Nutrient Requirements of the Beef Female in Extensive Grazing Systems—Considerations for Revising the Beef NRC.....	437–439	440
Breeding and Genetics: Genomic Selection in Dairy I.....	440–447	442
George C. Fahey Companion Animal Nutrition Symposium II: Comparative Animal Nutrition	448–453	445
Ruminant Nutrition: Dairy: Ruminant Fermentation and Health.....	454–465	447
Ruminant Nutrition: Dairy: Starch, Amino Acids and By-Products Supplementation.....	466–477	451
Dairy Foods: Dairy Products	478–485	455
Lactation Biology II.....	486–494	458
Dairy Foods: Microbiology.....	495–500, 813	461
Nonruminant Nutrition Symposium: Breaking the Mold—Formulating Monogastric Diets Without Traditional Ingredients.....	501–505	463
Physiology and Endocrinology: Nutritional Physiology	506–517	465
Production, Management and the Environment: Management and Methods II.....	518–528	469
Small Ruminant Symposium: Sustainable Meat Goat Production.....	529–532	473
Dairy Foods: Processing.....	533–537	475

Thursday, July 11, 2013

POSTER PRESENTATIONS

Animal Health: Immune Response Patterns.....	TH1–TH36	477
Ruminant Nutrition: Fats, Fatty Acids, Oils, and Glycerin Supplementation II.....	TH37–TH58	489
Ruminant Nutrition: Feed Additives, Minerals and Vitamins III.....	TH59–TH96	496
Ruminant Nutrition: Feeding, Ruminant Fermentation, and Efficiency of Production III.....	TH97–TH125	508
Ruminant Nutrition: Protein, Energy and By-Products Supplementation III.....	TH126–TH158	518
Animal Behavior and Well-Being II.....	TH159–TH177	529
Breeding and Genetics: Molecular Genetics.....	TH178–TH191	535
Extension Education	TH192–TH209	540
Food Safety	TH210–TH229	546
Forages and Pastures: General Topics	TH230–TH252	553

Growth and Development III	TH253–TH265	561
Horse Species	TH266–TH273	565
International Animal Agriculture	TH274–TH277	568
Lactation Biology II	TH278–TH289	570
Meat Science and Muscle Biology II	TH290–TH303	574
Nonruminant Nutrition: Enzymes	TH304–TH309	579
Nonruminant Nutrition: Feed Ingredients	TH310–TH326	581
Nonruminant Nutrition: Physiology	TH327–TH331	587
Physiology and Endocrinology III	TH332–TH358	589
Production, Management and the Environment: Surveys and Models	TH359–TH380	598
Small Ruminant: Health, Reproduction, Growth, Management	TH381–TH410	605
Swine Species: Weanling Pigs	TH411–TH420	614

SYMPOSIA AND ORAL SESSIONS

Breeding and Genetics: Genomic Selection in Dairy II	538–545	617
Breeding and Genetics: Genomic Selection Methods I	546–553	620
Contemporary and Emerging Issues	554–559	623
Dairy Foods: Dairy Chemistry	560–565	625
Graduate Student Symposium: How to Communicate Science Successfully Using Media Outlets	566–568	627
Growth and Development I	569–576	628
Meat Science and Muscle Biology Symposium: Pre-Harvest Factors Affecting the Prevalence of Pathogens in Livestock and Meat	577–578, 814–815	631
Nonruminant Nutrition: Feed Ingredients I	579–586	632
Physiology and Endocrinology: Pregnancy	587–593	635
Production, Management and the Environment: Diet and Forage II	594–599	638
Ruminant Nutrition Symposium: Burk Dehority—Swimming in the Rumen with Protozoa	601–604	640
ADSA Southern Section Symposium: Strategies for Managing Reproduction and Udder Health in Heat-Stressed Dairy Cows	605–609	642
ADSA-ASAS Northeast Section Symposium: Optimal Land Use for Northeast Farms—Growing Crops and Feeding Animals	610–612	644
Animal Behavior and Well-Being III	613–624	645
Animal Health: Health and Immune Function	625–634	649
Breeding and Genetics: Genomic Selection Methods II	635–643	653
Ruminant Nutrition: Dairy: Calf Nutrition and Feed Additives	644–647	656
Ruminant Nutrition: Dairy: Fat and Fatty Acids Supplementation	648–659	658
Forages and Pastures: Dairy and Livestock	660–669	662
Ruminant Nutrition: Metabolism and Modeling	670–679	666
Growth and Development II	680–687	670
Meat Science and Muscle Biology: Muscle and Meat Biochemistry	688–695, 828	673
Nonruminant Nutrition: Nutritional Values I	696–701	676
Production, Management and the Environment: Surveys and Models I	702–710	678
Reproduction Symposium: External Influences on Reproductive Neuroendocrinology	711–716	681
Ruminant Nutrition: Beef: By-Products and Dietary Modifications	717–722	683
Nonruminant Nutrition: Nutritional Values II	723–727	686

Friday, July 12, 2013

SYMPOSIA AND ORAL SESSIONS

Animal Behavior and Well-Being IV	728–735	688
Ruminant Nutrition: Beef: Dietary Effects and Additives	736–748	691
Ruminant Nutrition: Dairy: Feed Additives, Vitamins, and Minerals	749–758	695
Food Safety	759–762	699
Forages and Pastures: General Topics	765–774	701
Nonruminant Nutrition: Feed Ingredients II	775–782	705
Production, Management and the Environment Symposium: Confinement Animal Agriculture Sustainability	783–786	708
Production, Management and the Environment: Surveys and Models II	787–792	710
Ruminant Nutrition: Modification of Ruminal Fermentation	793–800	712
Ruminant Nutrition: Diet Modifications	801–811	715
