WELCOME to the FIRST JOINT INTERNATIONAL MEETING

As an attendee of the American Dairy Science Association (ADSA), American Society of Animal Science (ASAS), and the Canadian Society of Animal Science (CSAS) joint meeting, you will be participating in the first joint meeting of CSAS with ADSA or ASAS and the first joint meeting of ADSA and ASAS outside the United States. We could not have selected a more charming place than Québec City with its culture, architecture, and history to embark on these “firsts.”

Like the other firsts, the scientific program is second to none. There were over 800 abstracts submitted for oral presentation (over 280 hours) in either scientific sessions or symposia. When you get tired of listening, you can continue learning by reading the more than 800 poster abstracts that will be displayed and visit the commercial exhibits. Thus, beginning on Saturday with the Joint EAAP-ASAS Workshop on Biology of Lactation in Farm Animals and ending with abstracts at 11:45 AM on Thursday, there are 124 total hours of time in which you can participate in over 280 hours of presentations, read hundreds of scientific abstracts, enjoy the charm of Québec City, and get a few hours of sleep. To highlight any symposia, invited papers, or particular scientific sessions is an injustice to all of the other cutting-edge, knowledge-leading opportunities available at this year's meetings. Check out all of the latest information on symposia, scientific oral and poster sessions, plus the schedule of events on the website: www.fass.org/quebec02.

In addition to all of the scientific sessions, there are many socials, breakfasts, and other events planned to renew old friendships and catch up on the latest news in the industry and from universities. Also, it is our time to recognize colleagues for their achievements and contributions to animal agriculture at our annual awards ceremonies. Please check the listing of scheduled events for these activities.

The Program Committees have done an outstanding job of identifying a wide array of symposia and speakers that will surely provide something for everyone. The list of people on these committees is too long to name here, but thank you to everyone for his/her time and dedication in the planning and preparation for this meeting.

The Overall Program Committee with members Dave Anderson and David Ames from ASAS and John Bruhn and Rafael Jimenez-Flores from ADSA has been instrumental in creating the framework and overseeing the development of this outstanding program. Also, thanks to Tim McAllister and Robert Berthiaume’s support from CSAS and the insight from the Local Host Committee Co-Chairs, Denis Petitclerc and Jean-Paul LaForest. In addition, take time to thank all the staff at ADSA, ASAS, and FASS, but especially Ellen Bergfeld (ASAS), Brenda Carlson (ADSA), Jennifer Gavel (FASS), and Amy Kemp (FASS) for all of their work. Without the dedicated work of these people behind the scenes, the extensiveness and the quality of the program you are going to participate in would not be possible.

I look forward to seeing you in Québec City.

Jim Linn

Québec City Information

Québec City is not only one of the oldest cities on the continent, it is also one of the most beautiful. The only walled city in North America, the historic architecture of the Old City has undergone major restorations that have returned much of its original beauty.

Prime among this historic real estate is The Citadelle, home to the “Van Doos,” the Royal 22nd Regiment, making it the largest North American fort still occupied by troops. Occupying the highest point of Cap Diamant, 320 feet above the St. Lawrence River, the site was first built on by the French, but the majority of buildings were constructed by the British under orders from the Duke of Wellington, who was anxious about American attack after the War of 1812.

In addition to the Old World charm of the capital city of La Belle Province, Québec also bills itself as the World’s Snow Capital. From humble beginnings, the Québec Carnival is now Québec City’s third-largest industry, featuring colorful sashes, fanciful snow sculptures, and a traditional canoe race across a half-frozen St. Lawrence.
Québec City’s charm and beauty rests in its rich and resplendent history. Along the mighty St. Lawrence River, Québec City is a walled fortress — the only one of its kind in North America — and a gateway to Canada’s earliest civilization. The atmosphere of continental Europe lives on in Old Québec with its narrow cobblestone streets, horse-drawn carriages, and enchanting atmosphere. The infusion of fine dining establishments, unique shops, and a vibrant arts community underscore the city’s thoroughly modern character.

**Weather**

The Québec City area adapts to the rhythm of the seasons. Each season has a unique charm that transforms a stay in Québec City into a never-ending series of delightful discoveries. The landscape, the people, and daily activities change according to the season, but the warm welcome extended by Québécois is constant yearlong.

**Summer**

The temperature in the Québec City area is often hot and sunny, with days of highs of 25°C (77°F) or more. The streets and terraces are filled with residents and tourists from the beginning of June to the beginning of September. Choose clothing adapted to hot days and evenings. A light jacket or sweater is recommended at night, especially in August.

**Traveling**

- **Identification papers (visitors from the United States)**

  Citizens or permanent residents of the United States can enter Canada without a passport or visa. However, it is recommended that American visitors have in their possession proof of citizenship, a citizenship card, a naturalization certificate, or a government-issued birth certificate. If these documents do not include a photograph, a driver’s license or other photo identification may be presented with these documents as proof of identification. Permanent residents of the United States who are not American citizens must have a green card.

- **Identification papers (visitors from countries other than the United States)**

  All those arriving in Canada from a country other than the United States must have in their possession a valid passport, unless they have American citizenship or are legal permanent residents of the United States. All visitors are responsible for ensuring they have all necessary documents, including those authorizing them to travel to a country other than their own or to return to their home country, before receiving permission to enter Canada.

- **Personal effects**

  Clothing and other personal effects are exempt from customs duties. Persons aged 18 years and older may import limited quantities of tobacco products or alcoholic beverages into Canada duty-free. It is recommended that visitors register articles such as cameras, tape recorders, computers, and sports equipment with their customs services of their own country before entering Canada as proof that the said articles were purchased before entering Canada.
· Gifts
Any gift except tobacco products, alcoholic beverages and advertising material sent through Canada Post by non-residents are exempt from customs duties if the gift is worth CAN$60 or less. Standard customs duties apply to any gift worth more than CAN$60.

· Customs declaration
For information about regulations for entering the United States, please contact the nearest Office of the Regional Director of American Customs Duties. For further information about visas or other necessary travel documents, contact the Canadian embassy, high commission, or consulate in your country before departure.

· Canadian money and banking services
Legal Canadian currency is the Canadian dollar. Fluctuating exchange rates account for the difference between the value of the Canadian and American dollar. It is recommended that visitors use Canadian currency when traveling in Canada to avoid problems with exchange rates. The Canadian dollar is equivalent to 100 cents. Bank notes in denominations of 5, 10, 20, 50, 100 and 1000 dollars are available. Coins in Canadian currency are available in denominations of 1, 5, 10, and 25 cents, as well as 1 and 2 dollars.

· Banks and currency exchange offices
There are many banks and currency exchange offices where visitors can exchange their currency for Canadian dollars.

· Taxes
Taxes are not included in the listed price of goods and services purchased in Canada. Two taxes are added to most articles upon payment at the cash register: the 7% Goods and Services Tax (GST) and, in most provinces, a provincial sales tax (PST). In Québec, the provincial sales tax is 7.5%.

· Tax reimbursement
Non-resident visitors may request the reimbursement of the GST they paid for most goods for use outside Canada, temporary accommodations and most conference services. Reimbursement request forms and additional information about reimbursement are included in the Canada Customs and Revenue Agency (CCRA) publications Tax Refund for Visitors to Canada and Tax Refund for Business Travel to Canada. These publications and forms can be obtained at the financial services offices of the CCRA, tourist information centers, as well as at the Canadian embassy, high commission, or consulate in your country. These publications are available on the Internet at www.ccra-adr.gc.ca.

To receive a reimbursement, mail your request form at the address indicated on the back cover of the aforementioned publications. Requests for cash reimbursements may be made in person at participating duty-free shops located at ground-
based border crossings. Consult the publications for the list of participating duty-free shops.

**Local Cuisine**

The more than 1000 restaurants in the region representing the cuisine of over 25 countries testify to the Québécois love of good food and conviviality.

**Local Attractions**

**Citadel**

Québec's Citadel is the most impressive fortification built in Canada under British rule and one of the most popular attractions in the city. Situated atop Cap-aux-Diamants, this historic site is a unique way to acquaint oneself with the military history of Québec City. It was designed according to a defense system developed by a French military engineer. The construction of the outer walls started in 1820, and it took 30 years to finalize its construction. The Citadel is in the shape of a four-pointed polygon, with each point forming a bastion covering 37 acres. It has two buildings constructed by The French, and a number of others are still very well preserved.

**Ile d’Orléans**

Ile d’Orléans is an island in the middle of the St. Lawrence River that features inspiring scenes of Québec heritage.

**Musée de la Civilisation**

Situated along the St. Lawrence River, a few steps from Quebec City’s Old Port, the Musée de la civilisation is a theme museum. Its exhibition topics are links among the past, the present, and the future; its approach presents a new and dynamic vision on the human experience, on civilizations from here and from farther afield.
**Old-Québec**

Old-Québec is known as the city within the walls. The area boasts many restaurants, outdoor cafés, bars, and souvenir boutiques. Craftsmen, artisans, and caricaturists can be found at almost every street corner.

**Plains of Abraham**

Nestled between Québec City and the magnificent St. Lawrence River, The Battlefields Park, better known as the Plains of Abraham, is one of the world’s most treasured parks. The site of many clashes between the French and British empires in their struggle for domination, the Park was the scene of the 1759 battle that forever changed the course of North American history.

**Ste-Anne-de-Beaupré**

The religious village of Ste-Anne-de-Beaupré is the portal of entry of the magnificent Charlevoix county. Nestled between mountains and the St. Lawrence River, it is the home of the world-renowned St-Anne Basilica. Every year, the village welcomes over 1.5 million visitors and pilgrims.

**Valcartier Vacation Village**

Valcartier Vacation Village offers activities all year round. In the summertime, it becomes Québec’s largest waterpark with many water slides and pools. It is the home of the Everest, North America’s highest accelerating water slide. In the wintertime, it is the place to be for snow rafting, cross country skiing, ice skating, and sleigh rides.

MEETING INFORMATION

Publicity/Public Relations/Media Center
Room 201A in the Québec City Convention Center will be reserved as a Publicity and Public Relations Center. Publicity and news releases will be issued from this location.

Business Center
A Business Copy Center for your use is located on Level 4 of the Québec City Convention Center, near the main entrance of the Convention Center. You may purchase small business items and have copies made at your expense. A more complete business center can be found at the Hilton Hotel, just a few steps away from the main entrance of the Convention Center.

Speaker Ready Room
Room 201B will be set for you to preview your slides and test your computer with an LCD projector before your presentation. You will need to provide your own slide carousel and laptop computer.

Poster Presentations
All poster presentations will be on display Monday through Wednesday in Room 400ABC of the Convention Center. This is adjacent to the area designated for commercial exhibits. Poster sessions are scheduled for Monday and Tuesday from 8 am – 5 pm and Wednesday from 9 am – 1 pm. All posters must be staffed by a presenter at the times designated in the ADSA-ASAS-CSAS Joint Meeting program; however, posters will be available for viewing Monday through Wednesday. The poster board surface is 37” high and 88” wide. Poster presenters must supply their finished poster and velcro to display their poster. (Please note that push pins may not be used on the boards this year.) All posters must be in place by 8 am Monday, July 22.
Attention LCD Projector Users

ADSA-ASAS-CSAS Joint Meeting will again provide LCD projectors for those who wish to utilize this mode of delivery. All presenters will be contacted prior to the meeting with specific instructions. If you have specific questions, contact your session chair.

In the unlikely event that the LCD or computer fails during a presentation, the presenter must be prepared to continue verbally.

For those individuals who plan to use their own laptop, have your display set to 640 × 480 or 800 × 600 (avoid 1024 × 768 – it may not display correctly). Know how to configure your video settings in case there is a problem.

Avoid delays from booting your computer at the start of the presentations. Some computers require the projector be attached in order for the video port to be activated. Use a computer that is able to detect a video display without requiring a reboot.

Load the presentation software and open the slide show prior to the presentation. Then put the computer in a “suspend” or “sleep” state. At the start of the presentation, attach the projector to the video port and then “wake” or “resume” the computer.

It is recommended that your computer’s refresh rate be set to 60 Hz prior to your presentation. Refresh rates above 60 Hz are beyond the acceptable range of LCD projectors. Please review your owner’s manual to perform this modification.

Know how to activate your computer’s video port. This often requires a specific key combination and is different on different types of computers.

Bring your computer’s power cable/cord and use it to be sure of a strong signal from the computer to the projector. Do not plan to power your computer with the battery. You will not need an extension cord.

There will be no remote control, so plan on running the keyboard yourself.

It is highly recommended that you use your computer with an 800 × 600 display projector prior to the meetings so you will be familiar with the connection and configuration required for your type of computer.

A speaker ready room (Room 201B) with LCD panel will be available for presenters to prepare their computers.

Special Note for Macintosh Users

You must bring your own docking cable for the connection between the computer and the projector. You must have “video mirroring” on your system. This can be loaded from the Systems disks (version 7.0 and higher).

ARPAS Continuing Education Units

The ADSA-ASAS-CSAS Joint Meeting has been approved for up to 28 continuing education units (CEUs) for the American Registry of Professional Animal Scientists certification requirements.

Sign up to take an ARPAS Exam (Page 37) and return your request with your registration. Check at the registration desk for the times and location of the exam.
Placement Center

- Teaching

Should you have any questions, please contact the business office at 217/356-3182.

ADSA and ASAS will sponsor an On-Line Placement Center for the benefit of the membership. This opportunity will be in addition to the traditional placement center, where printed position descriptions are displayed on poster board.

The On-Line Placement Center will be a web site where prospective employees can review your job description; go directly to your company, university, or agency web site; or even respond immediately via e-mail to your ad. The cost to include your company's listing on the On-Line Placement Center will be $20, which covers a three week listing (July 14- August 4), active links to your web site, and an active e-mail link to your contact person.

Announcements should include the name of your organization; position title; description of the position, including requirements, duties, and salary; deadline for applications; and start date, if appropriate. Please do not include logos or other artwork and try to contain the ad to a single paragraph.

The procedure for posting a job is simple and efficient. Visit the Meeting Web Site at www.fass.org/quebec02 and click on the On-Line Placement Center. The submission form will be available beginning June 1, 2002, and job announcements will be accepted through July 10, 2002.

At the time the form is submitted electronically, please send payment ($20) to ADSA-ASAS-CSAS Joint Meeting at 1111 N. Dunlap Ave., Savoy, IL 61874 and indicate that payment is for the placement of an ad with the On-Line Placement Center in conjunction with the 2002 Joint Meeting.

If you have any questions or comments about this service or submission process, please contact Amy Kemp at amyk@assochq.org or 217/356-2426 (ext. 26).

The 90-minute program will include role playing by the leaders, breakouts for theme development, video recording of a couple of short interviews, and critique of the videos. This promises to be a very exciting and hands-on session that will have an impact on each participant. Plan now to include the Career Symposium in your meeting schedule.
